Office work

- Met with Amer, Richard, Hovik, and Sybil to go over EWB processing. We need to match the EWBs with diaries and tentative agreements before approving the EWBs. It was agreed that from now on we will follow this process and the seniors should communicate with the Leads so the diaries will come in a timely manner.
- Received recommendation from Kevin Fong of Labor Compliance that we take a new \$10,000 deduction for unresolved Labor Compliance issues for State Letter 1433. We keep the existing \$27,000 in deductions in place.
- Received an email from Hovik informing me that MCM had reviled their letter per recommendation from EBMUD. See MCM letter date 4/16/09 to Diana Lee of EBMUD. MCM will move forwarded post photo survey of EBMUD on 4/20/09 as scheduled. There was another issue brought up by Fernando Velez regarding the post photo survey of the EBMUD. Fernando stated that this activity should be deferred to the end of the job, whereas, the contract requirements do not limit the contractor to this requirement. The Special Provisions calls for 26-meter (80 feet) radial limit requirement for monitoring vibration to EBMUD outfall for pile driving activities. The pile driving operation for CMS 64 is over 100 feet away from the outfall.
- Receieved comments from Jim Gallego regarding TIAs for CCO #33, #75, #84 and #94. Reviewed and approved TIAs by State Letters 1475, 1476, 1477 and 1478. The contractor will get 6 compensable days for the work of CCO #94 and 7 compensable days for the work of CCO #84.
- Reviewed and approved daily diaries and time sheets.
